SUPPLEMENT

25X1A

ORIGIN
25X1X

1. The Soviet Government is moving quantities of industrial equipment to Siberia (from Europe?) and is bending every effort toward industrial reconstruction in the Far East (? Siberia?).
2. Some Polish engineers have gone to Siberia to work on the dismantled German factory equipment and machinery which they looked after enroute. Some other Polish engineers have arrived in Nikolayevsk (140-40, 53-15) and Petropavlovsk (158-57, 53-01). They brought shipbuilding plant equipment and machinery with them, and have been given important and well paid positions in charge of installing equipment. These engineers voluntarily signed working contracts.
3. [REDACTED] has been given a 'very important' position for the construction of a synthetic gasoline plant in Yakutia (? Yakutsk (129-45, 82-02)?). He has a few thousand (?) German prisoners under him.
4. At present, Poles are taking over positions in the USSR which were formerly held by Germans and Americans.
